On the second day we went to a museum and were told every thing about Norderney's mudflats. Later we went on a rallye and I wasn't feeling good so my team and I stopped and went back. I went up to my room and I made a Covid test, and it was positive. All of my room mates needed to go out and slept alone and on the next day I went back home.

Norderney-the best island

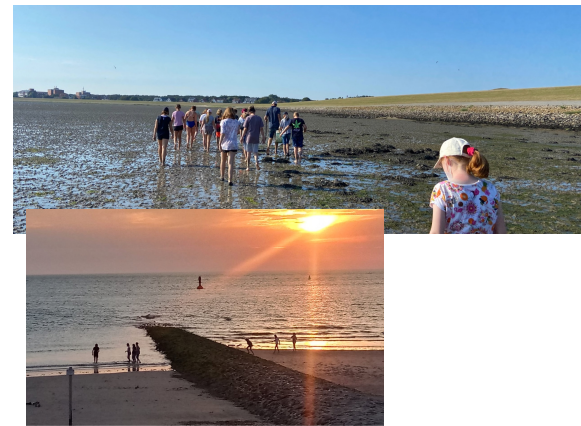

On Monday we left Arnsberg and went to Norddeich by bus. Then we went on the ferry to Norderney. It smelled like salty water and like baked-fish. We went with our trolleys to the hostel. As we arrived in the hostel we put our things in the bedrooms and went to the beach the first time. After the beach we ate dinner and played outside.

On Tuesday we woke up and ate breakfast. We were in the museum. It was named Wattwelten. Then we went to the beach to make an island-rallye but my group had to end before, because one person was sick. In the afternoon we went swimming in the sea. We ate dinner and played games outside.

On Wednesday we went through mudflats in the low sea. Also we were shopping in the town. We were nearly in every shop. 😂. In the evening we saw the sunset at the beach. It was soooooooooo beautiful.

On Thursday we rented bikes and made a soooooooooooooooooooooo long tour. At the end of the tour we were in the light-house. We had the colourful-evening. We drank coffee to stay awake. And we stayed awake until 6 am.

On Friday we took our things and went to the bus. We arrived in Arnsberg at the late noon.
